### PRACTICE NOTES

Use Practice Notes to brush up on unfamiliar areas of law or transactions. Practice Notes can take several different forms. They can provide a broad overview of a subject, or dive deep into a single topic. Designed to be read in 20 minutes or less, you will be able to quickly understand a topic or issue.

### STANDARD DOCUMENTS AND CLAUSES

**You need a sample document to start the drafting process.**

Use Standard Documents and Standard Clauses on Practical Law for drafting contracts, agreements, policies and more. These templates provide a strong starting point to help you get started, coupled with drafting insights from expert attorney-editors who have years of experience in their practice area.

### COUNTRY Q&A AND GLOBAL GUIDES

**You want to find and compare country laws across jurisdictions.**

Use your Global Guides, or your Country Q&A comparison tool, to find answers to country law questions and compare laws across multiple jurisdictions. Use these country-specific resources when you need authoritative knowledge on legal matters involving one country or many.

### CHECKLISTS

**You want reassurance that you are addressing every relevant issue.**

Presented in the form of timelines, flowcharts, tables, decision trees, and lists of issues, use the step-by-step explanations in Checklists at the outset or conclusion of a project. Practical Law Checklists help ensure that you are addressing all issues.

### TOOLKITS

**You need to quickly find relevant resources on a legal issue.**

Reduce the time you spend searching for updated, relevant resources on a legal topic or issue. Toolkits provide you with explanations of current laws and practices, Practice Notes, Standard Documents and Standard Clauses, Checklists and relevant articles that help you understand specialized subjects.
