ASK PRACTICAL LAW AI (UK)

AI-Assisted Research Training

Ask Practical Law UK – AI-Assisted Research

This 30-minute session will explain how the Ask Practical Law AI tool works to ask legal questions in everyday language. This enables you to make informed decisions about the direction of your legal research. In this session you will learn best practice tips on how to craft a query, apply follow-up questions and validate the results.

This session covers the following:

- How the AI-Assisted Research tool can jumpstart your Practical Law research.
- The content the AI tool is searching across on Practical Law UK.
- Best practice tips on how to craft a query, apply follow-up questions and validate responses.
- The Practical Law UK delivery features that are available.
- How to search history to view previously asked questions using the AI tool.

Session Duration

Approximately 30-minutes.

Session Delivery Method

Online via Microsoft Teams.

Note: The Webinar session allows participants to view the trainer's computer screen. At no time does the trainer access your computer.
